## **STATE LEGISLATIVE UPDATE**

### **Status of County Interest Resources Legislation**

**County-sponsored AB 1206 (Cedillo)**, which would appropriate \$5 million for development of the El Pueblo de Los Angeles Historic District, was moved out of the Senate inactive file (where it had been since August 30, 2001) and read a second time on August 12, 2002. According to the author's staff, the bill will be amended before its third reading, deleting the current provisions and substituting a bill related to drivers' licenses.

**County-support and amend AB 2214 (Keeley)**, which would prohibit licensing a site for disposal of low-level radioactive waste unless it complies with specified federal regulations, was read a second time in the Senate and technical amendments were made on August 5, 2002. It was heard before the Senate Appropriations Committee on August 13, 2002 and placed on the suspense file by a 12 to 0 vote.

**County-support and amend AB 2534 (Pavley and Nakano)**, which would appropriate \$195.4 million in FY 2002-03 from Proposition 40 funds for clean beaches, clean water, and watershed management, was amended on August 6, 2002 to eliminate loans leaving only grant programs, and adding an urgency clause requiring the bill to pass by a 2/3 vote. The bill is scheduled for hearing before the Senate Appropriations Committee on August 15, 2002.

**County-oppose unless amended SB 1916 (Figueroa)**, which would require Local Coastal Plans (LCP's) to include a nonpoint source pollution prevention element, was scheduled

for hearing before the Assembly Appropriations Committee on August 14, 2002.

### **Other Resources Bills**

Attached is a status report showing the four bills discussed above, as well as 47 other bills that relate to resource issues. The report is organized by subject categories, such as "Proposition 40", "Coast Related", "Air Quality", etc. If the County has not taken a position on a bill, the "Position" column indicates the County departments that have been asked to review the bill for potential impact on the County. In the "Status" column: < means a bill has passed out of a committee or house; > means the bill has been sent to a committee or house for the next action; \* means the bill has recently been chaptered (bills chaptered earlier in the year are not shown in this report); and + means that the bill is dead (many bills that died in their house of origin are not included in this report.)

If there are any questions regarding this report, please contact Dean Smith of my staff, at (213) 893-2086.

We will continue to keep you advised of any new developments.
